## Trigger Handle Service Plan

The TC2X trigger accessory provides users with significant flexibility as they adapt the TC2X device to different operations within their retail environment. The TC2X trigger accessory is considered a consumable item which may need to be replaced during the life of a TC2X. Therefore, Zebra highly recommends the purchase of a Zebra trigger handle service plan.

\*For dedicated high-intensity scanning operations, customers are urged to consider Zebra mobile devices with integrated gun handles such as the MC33 and TC8000.
